# Time present & time past

---

- Last time:
  - Static: methods, inner classes
  - Memory diagrams, compiler translation
  - Terran's `RobotHandler` class
- Today:
  - Static class loading
  - More on `RobotHandler` and testing
  - `PIRollout` crit

# Quote o' the day

---

Debugging is twice as hard as writing the code in the first place. Therefore, if you write the code as cleverly as possible, you are, by definition, not smart enough to debug it.

-- Brian Kernighan

# Quote o' the day

Debugging is twice as hard as writing the code in the first place. Therefore, if you write the code as cleverly as possible, you are, by definition, not smart enough to debug it.

-- Brian Kernighan

... maintaining code over long period of time is twice harder than debugging it.

-- Jean Tourrilhes
