

CS 491/591 Blockchains; HW3: Project Checkpoint

Prof. Jared Saia, University of New Mexico

Due: Thursday, April 9

In this homework, you will (1) write up a checkpoint for the class project and post it (or a link to it) on the Piazza forum; and (2) do a 5 minute in-class presentation (starting April 11).

Your checkpoint should include the following new information, and should be no more than 4 pages. It should clearly address the following points.

1. **Preliminary Results.** What are the preliminary results for your project. This can include information from a literature search, preliminary empirical data and/or preliminary theoretical results.
2. **Impediments.** What areas are you currently stuck on, and what do you need to do to resolve those problems?
3. **Next Step.** Given the above information, what is the next concrete step you will take.
4. **Research Plan (aka Remaining Steps).** A detailed research plan for the rest of the project.
