Research Interests

Theory and algorithms, including security, distributed computing and game theory. A strong current interest is determining how large networks of unreliable components can function reliably.

Education

Ph.D., Computer Science and Engineering, University of Washington, June 2002.
Thesis: “Algorithms for Managing Data in Distributed Systems,” advised by Prof. Anna Karlin.

B.S., Computer Science, Stanford University, June 1993.

Employment

2002-present. Department of Computer Science, The University of New Mexico. Associate Chair, 2011-2014; Full Professor, 2013-present; Associate Professor, 2008-2013; Assistant Professor, 2002-2008.

July 2016 - August 2016. Graduate School of Information Science, Nagoya University, Nagoya, Japan. Visiting Professor (sabbatical leave).

June 2015 - August 2015. Computer Science Department, Aarhus University, Aarhus, Denmark. Visiting Professor (sabbatical leave).

August 2008 - December 2008. Department of Information Systems, Polytechnic University of Catalonia, Barcelona, Spain. Visiting Associate Professor (sabbatical leave).

December 2008 - May 2009. Department of Computer Science, Sapienza University of Rome, Rome Italy. Visiting Associate Professor (sabbatical leave).

1993-1994. Advanced Telephony Research Labs, Nara, Japan. Visiting Researcher.

Awards and Honors

“Highlighted Paper” (1 of 4), at International Conference on Distributed Computing and Networking (ICDCN), 2020.

Best Paper Award, International Conference on Distributed Computing and Networking (ICDCN), 2014.

Nominated for UNM Outstanding Teacher of the Year, 2014.

Senior Faculty Research Excellence Award, School of Engineering, University of New Mexico, 2011.

Nominated for UNM Outstanding Teacher of the Year, 2011.

Best Paper Award, Principles of Distributed Computing (PODC), 2010.

NSF Faculty Early Career Award, 2006.

Junior Faculty Research Excellence Award, School of Engineering, University of New Mexico, 2007.

Best Paper Award, Japanese Society for Artificial Intelligence (JSAI), 1995.

Publications

Note: Former and current students and post docs are indicated in boldface in the author lists. Total citations to these publications number over 3,000, with an h-index of 26. Note: In theory conferences and journals, author names are in alphabetical order.

Keynote Talks at Conferences

“Proof-of-work Without all the Work” at the *27th International Colloquium on Structural Information and Communication Complexity (SIROCCO)*, Paderborn, Germany 2020.

“Truth, Lies and Random Bits”, in the Foundations of Computer Science track at the *41st International Conference on Current Trends in Theory and Practice of Computer Science (SOFSEM)*, Ped Pod Snezkou, Czech Republic, 2015.

Invited Talks at Workshops, Universities and Labs

7th Workshop on Biological Distributed Algorithms (BDA), “A Most Irrational Foraging Algorithm”, Toronto, ON, 2019.

Shenzhen Blockchain Workshop, Shenzhen China, “Proof of Work Without All the Work” 2017.

Security Group, Cornell University, “Proof of Work Without All the Work” 2017.

Oxford University, Oxford England, “Interactive Communication in Large Networks”, 2016.

Loughborough University, Loughborough England, “Interactive Communication in Large Networks”, 2016.

MIT Lincoln Laboratory “Clustering Coefficients and the Dunbar Number”, 2016.

Sandia Labs Livermore Campus, Invited Talk “Clustering Coefficients and the Dunbar Number” 2016.

Sixth Bertinoro Workshop on Algorithms and Data Structures, Bertinoro Italy, “Scalable Interactive Communication”, 2016.

Oak Ridge National Labs, Computer Science and Mathematics Division, “Reliability in Distributed Computing and High Performance Computing”, 2013.

Santa Fe Institute, “Truth, Lies and Random Bits,” 2013.

Fifth Bertinoro Workshop on Algorithms and Data Structures, Bertinoro Italy, “A Spectral Method for Detecting Malicious Behavior” 2013.

Institute for Computing in Science (ICiS) workshop on Future of the Field of High Performance Computing, 2012.

Banff International Research Station (BIRS) Workshop on “Probabilistic versus Deterministic Approaches to Shared Memory Computation”, 2012.

Fourth Bertinoro Workshop on Algorithms and Data Structures, Bertinoro Italy, “Scalable, Rational Secret Sharing,” 2011.

University of Iowa Invited Lecture Series, “Scalable Byzantine Agreement,” 2011.

Santa Fe Institute Summer School, “Distributed Computing,” 2011.

Santa Fe Institute, “Conflict in Communication Games,” 2010.

Information Theory and Applications (ITA) Workshop, San Diego “Fear in Mediation: Exploiting the Windfall of Malice,” 2010.

Third Bertinoro Workshop on Algorithms and Data Structures, Bertinoro Italy, “Fear in Mediation: Exploiting the Windfall of Malice,” 2010.

Yahoo Research, Barcelona, Spain, “Conflict in Networks,” 2008.

Dynamic Communication Networks Foundations and Algorithms (DYNAMO) Workshop, Arcachon, France, “Worm vs Alert,” 2008.

Santa Fe Institute Workshop on Scaling in Biological and Social Networks, “Worm vs Alert,” 2007.

University of California, Davis, “Building a Computer out of the Internet: Foundations for Collaborative Computation,” 2007.

University of Maryland, “Conflict on Large Networks,” 2007.

Microsoft Research Labs Networking Group, Redmond, WA, “Asynchronous Byzantine Agreement in Polynomial Time,” 2006.

University of Illinois in Chicago, “Secure Algorithms and Data Structures for Massive Networks,” 2005.

University of Barcelona, Spain, 2005.

CSRI Group, Sandia Labs, 2005.

Los Alamos Labs, 2005.

Santa Fe Institute Workshop on New Perspectives on Complex Systems, 2005.

Center for Discrete Mathematics and Theoretical Computer Science (DIMACS), Rutgers NJ, “Choosing a Random Peer,” 2004.

University of Maryland, 2004.

University of Southern California, 2004.

University of Tel Aviv, Tel Aviv, Israel, 2004.

NIPS Workshop on Robust Communication Dynamics in Complex Networks, Vancouver, “Scalable Byzantine Agreement,” 2004.

Dartmouth College, University of Minnesota, Emory University, University of Florida, University of Victoria, and University of Georgia, “Censorship-Resistant Peer-to-peer Networks,” 2002.

Conferences Chaired

Co-chair, International Symposium on Stabilization, Safety, and Security of Distributed Systems (SSS), 2018.

Co-chair, International Symposium on Stabilization, Safety, and Security of Distributed Systems (SSS), 2014.

Workshops Chaired

Co-Organizer PODC Workshop on Security in Permissionless Systems (SPS), 2019

Co-Organizer, Banff International Research Station for Mathematical Innovation and Discovery (BIRS) workshop on Foundations for a Distributed Ledger, 2020

Co-chair, First Annual Workshop on Competitive Economics of Cybersecurity (CEC), Sandia Labs, 2018.

Co-chair, 10th ACM International Workshop on Foundations of Mobile Computing (FOMC), 2014.

Co-chair, SIAM International Conference on Data Mining (SDM): Workshop on Analysis of Dynamic Networks (ADN), 2009.

Co-chair, International Conference on Data Mining (ICDM): Workshop on Analysis of Dynamic Networks (ADN), 2008.

Program Committees

Program Committee, Principles of Distributed Computing (PODC), 2020, 2015, 2011, 2006, 2005.

Program Committee, International Conference on International Conference on Distributed Computing Systems (ICDCS), 2020, 2012, 2011.

Program Committee, Symposium on Theory of Computing (STOC), 2017.

Program Committee, Symposium on Discrete Algorithms (SODA), 2012.

Program Committee, International Conference on Automata, Languages and Complexity (ICALP), 2014.

Program Committee, International Symposium on Distributed Computing (DISC), 2014.

Program Committee, IEEE International Parallel and Distributed Processing Symposium (IPDPS) - Algorithms Track, 2014, 2010, 2009, 2008.

Program Committee, International Symposium on Stabilization, Safety, and Security of Distributed Systems (SSS), 2019, 2012.

Program Committee, International Conference on Algorithms and Complexity (CIAC), 2010.

Program Committee, Symposium on Parallel Algorithms and Architecture (SPAA), 2010.

Program Committee, ACM/SIGMOBILE Annual International Joint Workshop on Foundations of Mobile Computing (DIALM-POMC), 2004.

Panels and Reviewing

Panelist for National Science Foundation proposal review panel, 2017, 2016, 2015, 2014, 2007, 2006, 2004, 2005.

I have reviewed manuscripts for the following journals and conferences: *Symposium on the Theory of Computation (STOC)*, *Foundations of Computer Science (FOCS)*, *Principles of Distributed Computing (PODC)*, *Symposium on Discrete Algorithms (SODA)*, *International Colloquium on Automata, Languages and Programming (ICALP)*, *Symposium on Parallel Algorithms (SPAA)*, *Symposium on Distributed Computing (DISC)*, *Joint Conference of the IEEE Computer and Communications Societies (InfoComm)*, *Journal of Experimental Algorithms (JEA)*, *Journal of Algorithms (JOA)*, *Journal of Computing (JOC)*, *Journal of Distributed Computing (JODC)*, *Journal of Networking (JON)*, and *IEEE Transactions on Computing*.

Graduate Students and Post Docs

For each student and post doc, the first position after graduation from UNM CS is listed (when known) after their graduation date.

Post Docs

1. Varsha Dani - 2013-2015, currently Research Faculty at UNM CS Department.

PhD - Graduated

1. Abhinav Aggarwal, Dissertation Title: "Thwarting Adversaries using Randomness and Irrationality", 2019. Senior Researcher at Amazon.
2. Jeffrey Knockel (co-advised with Jed Crandall), Dissertation Title: "What companies' unabridged keyword blacklists say about Chinese censorship of realtime chat", 2018. Researcher at The Citizen Lab, Munk School of Global Affairs, University of Toronto.
3. Mahdi Zamani, Dissertation Title: "Scalable and Robust Algorithms for Privacy-Preserving Applications", 2016. Post Doc at Yale University; now Senior Research at DFINITY.
4. Mahnush Movahedi, Dissertation Title: "Scalable Secure Multi-Party Computation", 2016. Post Doc at Yale University; now Research Scientist at Visa Research.
5. George Helmy Saad, Dissertation Title: "Selfishness and Malice in Distributed Systems", 2015. Senior Software Engineer at Jasper.
6. Olumuyiwa O. Oluwasanmi, Dissertation Title: "Practical, Scalable Algorithms for Byzantine Agreement," 2011. Process Engineer at Intel Corporation.
7. Navin Rustagi, Dissertation Title: "Security in Network Games," 2010. Postdoc at Rice University.
8. Amitabh Trehan, Dissertation Title: "Algorithms for Self-Healing Networks," **Winner of the UNM Dean's Dissertation Award**, 2010. Postdoc at Technion University. Tenure-track position at Loughborough University, UK.
9. Vishal Sanwalani (co-advised with Cris Moore), Dissertation Title: "Applications of the Probabilistic Method to Random Graphs," 2005. Post Doc at the University of Waterloo.

PhD - Current

1. Diksha Gupta, expected graduation 2021.
2. Nathan Hjelm, expected graduation 2021.

MS - Graduated

1. Aaron Kearns, 2016. Albuquerque Seismic Lab.
2. Jenny Chen, 2014. Software company in Silicon Valley.
3. Yamel Rodriguez, 2010. Financial technology company in Mexico City.
4. Bo Wu, 2009. Microsoft Corporation.
5. Vikrant Gaur, 2007. Rockwell Collins.
6. IChing Chang Boman (with distinction), 2006. Gigablast.
7. Maxwell Young (with distinction), 2006. PhD at University of Waterloo. Currently has tenure-track position at Drexel University.
8. Jake Proctor (with distinction), 2005. Sandia Labs.
9. John Alphonse, 2005. Microsoft Corporation.
10. Florina Cazaku, 2004. Waters Software.

Undergraduate

1. Abigail Soward, Summer 2018.
2. Joe Collard, 2011-2013. PhD at University of Massachusetts, Amherst.
3. Charlie Clauss, 2012-2013.
4. David De Francisco, 2007-2008. MS at Stanford University.
5. Yintao Yu, 2007-2008. PhD at University of Illinois, Urbana-Champaign.

Press Coverage

“Proof of Work without All the Work” in *YCombinator Hacker News*, 8/7/17.

“Research Scientist Delves into Problem of Persuading Millions of People to Cooperate for a Secure Internet” in *ACM Technical News*, *UNM Today*, Sept. 2010.

“Social Networking Software Tracks Zebras and Consumers”, in *Washingtonpost.com*, *ACM Technical News*, *Newswise Website*, *FOREX Trading*, *Healthcare Industry Today*, and *Ecademy Daily News*, 9/6/07 - 9/10/07

“Professor Fights a Mathematical Battle to Keep the Virtual World Running Smoothly”, *ACM Technical News*, 2/26/07 and *UNM Today*, 2/27/07

“Professor Goes to War,” *Front page lead article in University of New Mexico Daily Lobo*, 3/2/07

Courses Taught

CS 591, “Bitcoins, Blockchains and Beyond”, S’ 2019.

CS 591, “Game Theory and Social Computing”, S’ 2011.

CS 591, “Algorithms in the Real World”, F’ 2002

CS 561, “Data Structures and Algorithms”, F’ 2006, F’ 2007, F’ 2009, F’ 2010, F’ 2011, F’ 2012, F’ 2013, F’ 2014.

CS 511, “Cybersecurity: A Theoretical Approach”, S’ 2006, F’ 2007

CS 510, “Randomized Algorithms”, F’ 2004, S’ 2007

CS 506, “Computational Geometry”, S’ 2017, 2020

CS 4/527 “Introduction to Artificial Intelligence”, S’ 2008

CS 362, “Data Structures and Algorithms II”, S’ 2007, S’ 2006, S’ 2005, F’ 2004, F’ 2003

CS 361, “Data Structures and Algorithms”, F’ 2005, S’ 2004, S’ 2003

CS 261, “Mathematical Foundations of Computer Science”, S’2010, S’ 2019.

Courses Taught Elsewhere

“Conflict in Networks,” at Universitat Politècnica de Catalunya, 10 lecture course taught in the fall of 2008.

“Conflict in Networks,” at Università di Roma Sapienza, 5 lecture course taught in the spring of 2009.

Internal Service

Member Hiring Committee, 2017-2018.

Head of Promotion and Tenure Committee, 2014, 2015, 2016, 2019.

Associate Chair of UNM Computer Science Department, 2011-2013.

Member School of Engineering Promotion and Tenure Committee, 2013-2015.

Co-organizer of department colloquia, and organizer of joint UNM/Sandia distinguished lecturer series, 2007-2008 and 2010-2011.

Headed graduate student recruiting committee; Created a one page flyer: “CS@UNM, Our Alumni Speak for Themselves,” featuring quotes from several of our successful alumni; disseminated flyer to over 100 CS programs, 2010-2011.

Head graduate admissions committee, 2011-2012; Member graduate admissions committee 2003-2007.

Headed committee to change comprehensive exam for UNM CS Masters students; revamped course requirements and added new oral exam requirements, 2008.

Member Promotion and Tenure Committee, 2009-2010 and 2012-2013.

Primary organizer and creator of CS Recruitment Day for over 100 local high school students; event included research demos, videos, short talks, and a goody bag, 2006-2007.

Founded and ran orientation day for new PhD and Masters students, 2003-2007.

Headed graduate recruiting efforts for UNM CS; personally contacted top applicants to department, set up peer recruiting program, and organized visits, 2003-2006; Organized first official prospective grad student visit event, 2006.

Edited, designed and arranged publication of the first brochure for UNM CS department, 2005.

Created first department recruiting video for UNM CS department; video included interviews with current faculty, graduate and undergraduate students, 2006.

Headed PhD written comprehensive exam committee, 2012. Member PhD written Comprehensive Examination Committee, 2002-present.
